

PRESENTS

# LBS™ THE WONDER SOIL STABILIZER

- \* Ecologically safe
- \* Non-toxic
- \* Non hazardous
- \* Very economical
- \* For use on high plasticity clay-based soils
- \* Reduces almost all plasticity
- \* When mixed with aggregates increases of Strength exceeding 7,500 psi or 51 kg/cm2 are not uncommon
- \* Can be driven on at once, short cure time
- \* If not being paved then must be sealed with Enviroseal 2001™ or ENVIROSEAL LDC™
- \* **LBS** stabilized roads sealed with 2001 or LDC have a useful life of up to 3 years without major maintenance, 10 years with asphalt
